Benefits

Exclusive perks, discounts and access – only for Barclaycard business customers.

A more rewarding way to do business

Your Select Cashback credit card could offer lots of ways to help you stay in control of your business cash flow.

- 1% cashback on business spend every month* (as long as you pay on time). [T&Cs apply](#)
- No annual fee
- Add additional cardholders to your account for free at any time
- Up to 56 calendar days interest-free (when you pay in full and on time)[†]
- Set up recurring payments so you never miss one

*You'll get cashback on purchases with your Select Cashback card, but not on anything you later return or get refunded. You also won't get it on balance transfers, cash withdrawals, cheque purchases, insurance premiums, interest, default charges and other fees and charges.

[†]If you don't pay your full statement balance and only make the minimum payment, we'll charge you interest on your remaining balance.

Enhanced security

Enhanced safety and security

Our automated text service lets us contact you quickly if there's a transaction we're worried about. The message will include details about the transaction, and it'll tell you what to do next. Just make sure you keep your contact details up to date at barclaycard.co.uk/business/getonline

Chip and PIN

Using Chip and PIN helps minimise the risk of fraud. When you're buying online, use the three digits on the back of your card for extra security. If you need to change your PIN, you can select 'PIN services' at most UK ATMs, or you can ask us for a reminder on [0800 008 008](tel:0800008008).**

Contactless

You can use your card for contactless transactions. Your card doesn't need to leave your hand, helping to minimise the risk of fraud.

Please note, to enable contactless payments, you must first make a transaction using Chip and PIN.

Apple Pay

When you make a purchase using Apple Pay,^{††} your card information is secure because it isn't stored on your device or shared when you pay. To learn more, click [here](#).

PIN locking

To help keep your account protected, your card will be locked if the PIN is entered incorrectly three times in a row. You won't be able to use the card until the PIN is reset – you can do this at any UK ATM.

Online protection

When you log in to your account online or buy things online, you'll sometimes need to prove your identity using Strong Customer Authentication (SCA), commonly known as two-factor authentication. You'll need the following to prove it's you:

- something you know, e.g. a password or PIN
- something you have, e.g. a phone or card reader

Remember, if someone uses your card online without you knowing, we're here to help. Please click [here](#) to contact us and we'll investigate any incidents for you.

**Calls to 0800 and 0808 numbers are free from UK land lines and personal mobiles, otherwise call charges may apply. International calls will be charged at a higher rate. Please check with your service provider. Calls may be monitored or recorded in order to maintain high levels of security and quality of service. We are here 9am to 5pm, Monday to Friday.

^{††}Subject to your company policy. [T&Cs apply](#).
